**engAGE with Heart** is a program developed for and with the communities of **Baltimore**. We're bringing together families, churches, senior centers and community partners to support cardiovascular health.

**Education.**

We're empowering our community with the knowledge to take preventive care into their own hands.

**Healthy Food.**

We're enabling a pipeline of healthy food and the tools you need for healthy meal preparation.

**Screening.**

We're working with local health providers to screen our community for signs of cardiovascular disease.
